# Make and Do

Sandcastle Flag - Pirate

To make the flag you will need:

A print of the flag
Scissors
Glue stick
Paper Straw

Step 1
Print your flag and cut it out around the border. Look at the 'how to' video if you are not sure. Remember to be careful when using scissors and you may like to ask a grown up to help.

Step 2
Put the printed side of your flag face down on the table. Fold your flag in half and then open it out. Place your straw on the centre of the flag and put some glue on the blank side of one half of your flag.

Step 3
Press the two halves of your flag together making sure that all the edges line up and are glued down keeping your straw securely in the centre.

Step 4
Time to build your sandcastle! Remember to take your flags home and not leave them on the beach, then you can use them the next time you make a sandcastle.
